Antonio Sciortino	METAL SCULPTURES

Antonino Sciortino (1962) is an artist and designer with a peculiar background. As a child, he learned the trade of ironsmith in his brother's workshop in Bagheria, a small town in Sicily. At the same time, Sciortino commutes to Palermo for his other passion: dance. After a solid career as a choreographer at the highest level, he settles in Milan in 2003 to set his attention on the art of ironwork. Today Sciortino is known for his applications to the technique of 'filo cotto', literally translated as 'boiled thread'. His artful design consists of flexible, iron wirework inspired by the elegant movements of dance.

Bea Mombaers	FURNITURE

Ever since she was a young girl, Bea Mombaers had dreamed of pursuing her fascination for unusual finds and unique objects for a professional career. From a passionate seeker of things, she grew into one of the foremost women on the Belgian art and design scene. Over the past twenty years, her unrivalled sense of atmosphere and attention to detail have rewarded her with a widespread international reputation as an interior stylist with a prestigious portfolio, and publications in several leading lifestyle magazines. Her lifestyle boutique 'Items' in Knokke is known to be the number one reference for exclusive collector's items and coups de cœurs.

Bea Mombaers extended her recognisable signature style to a conceptual design bed & breakfast in Knokke Zoute, where she created an inspirational experience for interior design enthusiasts and peace seekers. The successful B&B gave Bea the idea to inject her DNA into an extensive Indoor Furniture and Outdoor Furniture collection launched in 2018 with Serax. Indoor and outdoor lounge sofas, decorative mirrors, steel interior accessories, and contemporary bistro and side tables, all of them statement pieces that stand out in in every room.

A number of collections followed in recent years, which makes Bea Mombaers one of the principal designers for Serax.

Furniture by Bea Mombaers

Marie Michielssen	FURNITURE

Designer Marie Michielssen has been an established member of the in-house design team at Serax for over 20 years. She has created countless designs inspired by and intended for everyday life. Her designs have a strong focus on functionality, but because she only works with materials that have 'soul', this is in no way at the expense of the aesthetic of her work as each and every one of her designs clearly shows. Marie designs two collections a year for Serax.

Among her most iconic contributions to the Serax universe are three very different yet equally expressive collections. Pawn is a sculptural series of side tables with geometric silhouettes that double as stools, and is playful, modular, and full of personality. Her Lighting collection ranges from ambient lights to statement pieces, handcrafted in ceramics and papier-mâché with a strong architectural presence. Finally, La Mère, her tableware line, pays homage to the nurturing figure of the (grand)mother with hand-moulded shapes, nostalgic glazes and painted female portraits.

Piet Boon | PATIO

Dutch designer Piet Boon started his career as a contractor. In 1983, he founded Studio Piet Boon, which has evolved into a globally operating design studio, recognised for creating perfectly balanced concepts in exterior, interior, and product design.

The partnership between Studio Piet Boon and Serax reflects a shared attention to detail and a commitment to delivering perfection. Together they presents an exceptionally elegant and functional outdoor furniture set named PATIO. For this collection, the studio drew inspiration from the iconic Parisien cafés and classic French gardens. PATIO combines the timeless charm of Parisian bistro sets with Studio Piet Boon's signature dedication to simplicity and functionality. The collection is made from aluminum and consists of three items: a dining chair with and without armrests, and a round table with a diameter of approximately 75 cm. The chairs come with white cushions and are perfectly stackable.

Vincent Van Duysen	RUDOLPH & AUGUST

Vincent Van Duysen's collections for Serax epitomise the pureness of form and intuitive relationship with materials that have helped cement his reputation as one of Europe's leading architects and designers.

After early experiences in the studios of influential Italian post-Modernist Aldo Cibic and Belgian interior designer Jean de Meulder, van Duysen was quick to establish his own path, leading to the launch of his practice in Antwerp – the city that has been his home since the 1980s.

He quickly garnered international acclaim for his ability to create distinctively atmospheric, serene and tactile spaces in which every element is connected and considered: a "total environment".

Over a career spanning more than three decades, he has refined this approach, applying it at every scale. From buildings to chairs, each project is richly layered, drawing on influences from art history and Modernist architecture and design, and combining a deep respect for natural materials and colour palettes with a singularly contemporary sensibility.
