Rhomb collection

by **SIMON MORASI PIPERČIĆ**

Rhomb is a spacious, comfortable and solid chair with armrests, produced by combining the latest wood manufacturing technologies and sophisticated handcraft. Its character is defined by the rhomboid section that rotates and changes the shape depending on the function of the curve that unites the backrest and the armrest. Through selection of several types, colours and solid wood finishes, Rhomb easily adapts to various interiors, either residential or public.
