FEAL
PERFECTION IN ALUMINIUM

We are FEAL

750

Employees
of FEAL group

1,500

Partners

80,000

Tons of annual
production capacity

7

Presses

14,000

Tons of anodized profiles annually

10,000

Different profiles

20,000

Tons of powder coated profiles annually

45

Architectural systems

Extrusion

7 Aluminium presses

80.000 t/year pressing capacity

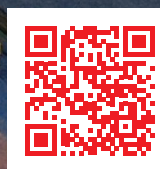

Alloys

FEAL is processing aluminium billets from alloys 6060, 6063, 6005A, 6082

Different alloys are available upon request.

Scan for more

Max. Press open width

The max. dimensions on the press 35 MN are in width of about 420 mm, depending on profile shape.

Surface protection

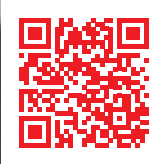

4 Modern powder coating lines

2 Fully automatic anodizing lines

Brushing
and grinding

Powder
coating robots

Decorative
surfaces on demand

Machining

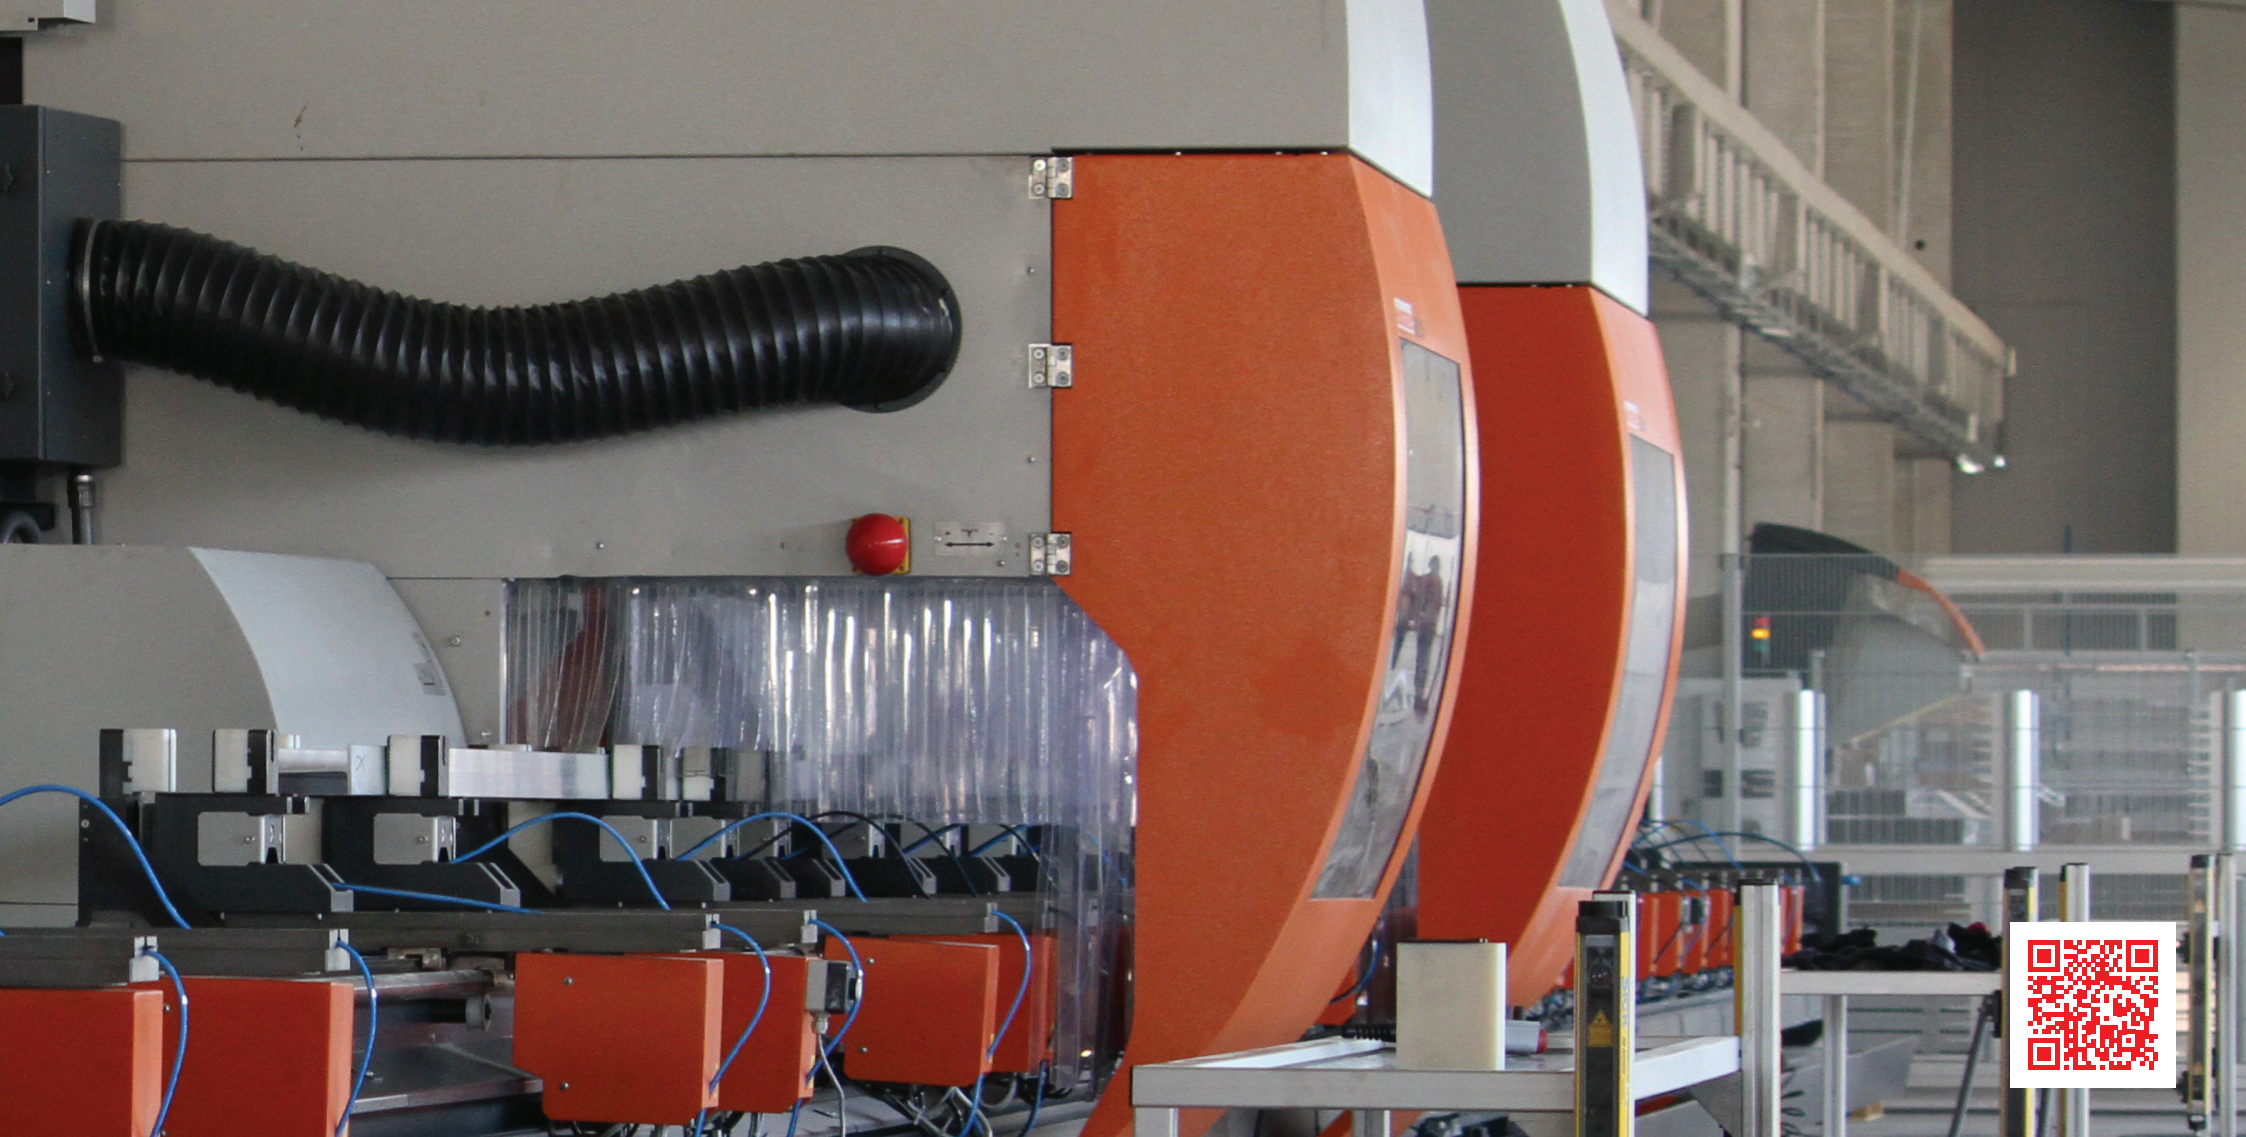

CNC machining

We can process aluminium bars up to 30 m. Processing types: milling, drilling, cutting, threading/notching, automatic change of tools and measuring the length of processed piece.

Laser cutting

Fiber technology is primarily suitable for processing thin to thick sheets of aluminum, stainless steel and steel, and other non-ferrous metals (copper and brass).

Welding

We have welding certificates that are particularly requested in train industry. One of our specialties is complete assembly of train windows.

Profile bending

We own suitable machines and qualified staff can provide all kind of services from projecting to the final processing of the most demanding bending requirements.

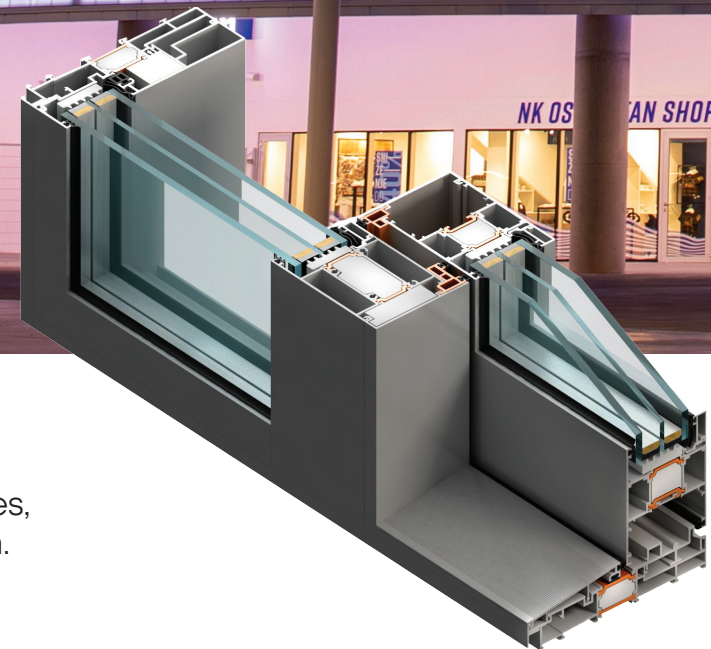

Architectural systems

**FEAL test
center**

EU regulations certified

Thermic connection

We have 3 lines for connection of profiles equipped with modern CNC machines, that enable the connection of profile of the largest cross-section 410x360 mm.

45 developed architectural systems

Wide range of architectural systems

Our systems cover all areas: the doors, sliding doors, windows, post and beam facades etc. At our test center new systems can be tested in a very short time according to the EU regulations. FEAL works hand in hand with institutions like IFT Rosenheim and GBD Dornbirn.
