

P-KOON P-KET

P-KOON P-KET

DESCRIPTION

Designed by Dean Skira, P-Koon and P-Ket are sophisticated LED bollards capable of enhancing outdoor environments with refined lighting effects, offering both decorative and functional illumination. Available with either opaline or clear glass, these innovative linear standing lights are ideal for creating uniform backdrops on hedges, bushes, or low trees in green spaces. Their spike-based design allows for easy installation in various types of soft ground, ensuring seamless integration into any landscape.

MAIN FEATURES

- Max. delivered lm output: 800 lm / 40 lm/W
- P-Koon size: 108x99 H.900 mm / 4.25"x3.9" H.35.4"
- P-ket size: 71x106 H.580 mm / 2.78"x4.19" H.22.8"
- Control system: DALI or 0-10V with separate power supply
- Innovative linear standing lights ideal for the creation of uniform backdrops on hedges, bushes, or low trees in green spaces
