#### Frame

Dedo's frame is made out of solid wood - oak. Elastic cotton ropes are connecting the backrest with the frame, providing cushion support. Felten gliders are attached to the chair legs and are suitable for most flooring options, while the footstool comes in a curved rocking base and does not include gliders.

#### Upholstery

Seat cushion is attached to the frame body, while the back cushion is connected with the belts to the backrest frame. The lounge chair has additional height-adjustable head cushion. Two material options for upholstery are available: leather or fabric, while cushion belts are always in leather options. For further information please see Available materials and colours page in this document.

#### Finish

Wooden parts are available in two plant-based Hardwax oil finishes (colours), which retain the wood's natural state, as a white or natural oil or as a black lacquered option.

#### Cleaning

Please see [Product](#) or [Material](#) page on our website.
